

Aditi Simha Memorial Symposium on Soft Matter Physics

Confirmed speakers

- Vijayakumar Chikkadi, IISER Pune, India
- Chandan Dasgupta, IISc Bangalore, India
- Rajesh Ganapathy, JNCASR, Bangalore, India
- Kavita Jain, JNCASR, Bangalore, India
- Richa Karmakar, IIT Madras, Chennai, India
- Sreeram K. Kalpathy, IIT Madras, Chennai, India
- Mohamed Laradji, The University of Memphis, USA
- Rahul Mangal, IIT Kanpur, India
- Kabir Ramola, TIFR, Hyderabad, India
- Basudev Roy, IIT Madras, Chennai, India
- Rajesh Singh, IIT Madras, Chennai, India
- Satyavani Vemparala, IMSc, Chennai, India

About Aditi Simha: Aditi Simha was born on 28 December 1972 as the second child of Prof. Roddam Narasimha and Dr. Neelima Narasimha. She completed her schooling at the Kendriya Vidyalaya in the Indian Institute of Science, Bengaluru, and later, graduated in Physics from St. Joseph's college under Bangalore University. She joined the integrated Ph.D. program at the Department of Physics, Indian Institute of Science in 1995 and completed her Ph.D. in 2003. During her Ph.D., she did outstanding and well-cited work on the physics of active matter, under the mentorship of Prof. Sriram Ramaswamy. After her Ph.D., Aditi joined the Max Planck Institute for Physics of Complex Systems, Dresden, Germany, where she did post-doctoral research in the group of Prof. Frank Jülicher. In 2005, she moved to the University of Leeds, U.K, where she spent two years in the group of Prof. Mike Evans, engaged in research in non-equilibrium statistical physics. Aditi joined the Department of Physics, IIT Madras, as an Assistant Professor in 2008. An insightful and gifted physicist, Aditi was also known for her caring, helpful, and compassionate attitude toward students and colleagues alike. She passed away on 5 December 2018.

Venue: IC & SR Building, IIT Madras.

Starts at 2pm, March 31 and ends on 6pm, April 1, 2023.
